Space Shuttle Columbia Set to Launch at 12:50 p.m. CDT Tues.

NASA Managers decided Monday to reset the launch time of the Marshall-managed Microgravity Science Laboratory - 1 mission to 12:50 p.m. CDT Tuesday. The launch was moved forward 47 minutes in hopes of avoiding bad weather. Weather forecasters are predicting a 90 percent possibility of a launch delay due to thunderstorms with dangerous rain, winds and lightning.

Marshall Center Participates in Intra-Agency Exercise Challenge

Marshall, a two-time winner of the annual Intra-Agency Exercise Challenge, is participating in the program again this year. During the Challenge, which began March 1, NASA field center employees are recording and reporting their exercise activities throughout the summer. The center with the most participation will be recognized. Marshall employees may pick up and turn in log sheets in Bldg. 4752. **Contact:** Bill, Pat or Teri, 4-7570.

CTAP Center Moves to New Location; Reopening July 9

The Career Transition Assistance Program (CTAP) Center is moving from Bldg. 4723 to Bldg. 4200, Room G-13. The center is closed during the move and will open at its new location on Wednesday, July 9. **Contact:** CTAP Manager Bob Norwood, 5-1354.
